

Used'em all, Mothers, Simicrome, Autosol, Neverdull and on and on... Thee absolute best product I've found is Ragman's Polish, met the guy at a race at Norwalk last year. The chrome shop that helps me with my bikes liked it so much, it's the only polish they use now and ordered a case.

www.ragmansmetalpolish.com. Works on aluminum, chrome and even chromoly and the best part is if your stuff is clean it takes about 1/3 of the effort to keep it clean after using his polish.

Used on these:

The TF bike is acres of polished aluminum and uncoated but highly polished chromoly frame/wheelie bars. Ragman's Polish keeps the oxidation way way down.

TJ Zizzo NHRA & IHRA Top Fuel Dragster.

Ragmans metal polish is the best polish ever used

Ragmans metal polish is the best polish ever used, I've had it along time this stuff works wonders. If it's not ragmans it's just a dirty rag.

White Medium Polish
\$20.00 16oz Bottle

Red Fine Polish
\$20.00 8oz Bottle

Anodize Remover
\$12.00 16oz Bottle

Hi my name is Dale Preston, I have been selling my polish at IHRA ,NHRA drag races as well as swap meets and custom car shows in Ohio, Michigan, North Carolina, South Carolina, Indiana, Kentucky, Georgia, and Florida for over 20 years. I sell mostly by word of mouth, and have very loyal customers, as I have a high volume of reorders. Some of the best well known race teams and car builders around the world buy this polish. Some with sponsorship even GET MOST STUFF LIKE POLISH FREE. Please checkout my web site, ragmansmetalpolish.com it is under construction, but there are some interesting pictures to see, all of the car pictures are repeat buyers like NHRA top fuel driver TJ Zizzo and Jerry Hass. The polish retails for \$20 per 16 oz. bottle. Please try some on different metals as well as head and taillight lenses, fiberglass, granite and Corian solid surface countertops as a cleaner. Please note this product does contain abrasives and petroleum distillates you should test on small area before using. If you have any questions please call me at. 419 668 4288. Thank you. Dale
